EAGLE POINT HIGH SCHOOL  
FRIDAY, MARCH 28, 1930

## PLAY TO BE PRESENTED FRIDAY, APRIL ELEVENTH

This week the play cast started their concentrated practice which will continue until the play is given on Friday evening, April 11.

Because of illness, Kirch was forced to drop out of the play. Donald Young has taken Kirch's part in the play and John Medley has taken Donald's former part. These changes and basket ball games have retarded the progress of the play, but it has a good start and with practices on Monday and Wednesday after supper and after school each day, it will no doubt progress rapidly.

Students who live out of town have arranged to stay and do all in their power to cooperate with their coach, Miss Burt, and make the play a success.

## P.T.A. HONORS B.B. PLAYERS

A banquet will be given tonight by the P.T.A. in honor of the girls and boys basket ball teams, consisting of twelve girls and eight boys. The six faculty members have also been invited.

The banquet will be held in the domestic art room of the old school building. Mrs. Caster is in charge.

## PARTY TO BE GIVEN WINNING TEAM

The winners of the subscription contest, which was the Red team, will be entertained by a party called "The Flying Jubilee" on April 4.

The plans for this party are to be kept a secret from everyone excepting the faculty, business manager, and the leaders of both teams, which will be in charge of the party.

The High School had planned several parties for this year but the committee in charge decided to unite all these parties in this one, because of the play, operetta and other activities of the school coming so soon.

## JUNIOR CHRISTIAN ENDEAVOR STARTS SUNDAY

A group of children between the ages of 8 and 12 met at the Eagle Point Presbyterian church last Sunday at 2:00 o'clock to form a Junior Christian Endeavor. The children are very enthusiastic and promise to be an active group of workers.

Any older Endeavorer interested in this work would be appreciated if they would volunteer to help in teaching the children.

STUDENTS ENJOY  
TENNIS COURT

The tennis court is now a thing of the present as is to be seen by the large crowds that are found around the court each morning, noon, and afternoon, eagerly watching while waiting for their turn on the court.

This new recreation is sure of a faithful following in Eagle Point High School now that it has started. We wish to thank the P. T. A. for their help in securing the court and Mr. Davies and his shifting crew for their faithful work in building the court.

\* \* \*

Mrs. C. F. Davies and  
baby daughter Kathleen May,  
came home Friday, March 21.

三三三

Mr. and Mrs. Obrie Davinson and family have moved into the Whaley residence.

222 223 224

Geneva Mires spent the week end with Elcie Loveland.

二二二

There will be a volley ball and base ball game played Friday afternoon between Jacksonville Grade School and Shady Grove on Shady Grove's ground.

MOTORCYCLE ACCIDENT  
OCCURS ON SCHOOL GROUNDS

A slight mishap occurred Monday morning when Lloyd Gingrada ran into the wire fence which surrounds the tennis court. He was jumping from an inclined board on his motorcycle when he lost control and hit the fence. A section of fence about four feet long was broken. It is now repaired and is as good as ever.

The Ladies Aid Society of the Presbyterian Church gave a chicken dinner, Friday evening, March 21. Dr. Corkle, a missionary from China, gave a very interesting talk during the evening.

Theron Taylor, who has the flu is very ill. The Doctor called Saturday afternoon. He has been ill for over two weeks.

22 22 22

Elsie and Dorothy Wilhite  
spent Saturday night and Sunday  
at the home of their parents of  
Lake Creek, Oregon.

SHALL IT OR NOT

Sybil Caster wore a pair of high heeled pumps to dance.

Mike Vanscoy really plays cards without wearing gloves.

John Medley is learning to dance.

Elsie Wilhite suggested that we girls play hookey.

THE TIME MACHINE  
(Billy Davidson)

The Time Machine was a peculiar looking apparatus. When I first saw it at a secret Convention of the Interplanetary Airplane Designers, I wondered what it was.

It reminded me of a fat squat airplane. Although the absence of any motor showed me that it was not an airplane. The only thing I could learn about it was one of the members (I knew him well) had succeeded in taking electricity apart into its separate elements hitherto unknown to man. One of these was a ray which supplied the motive power to the machine.

The next day in my mail I received a summons to meet at a certain place with four other men. When I arrived there I learned I was to meet the man, Pierre Rothard, a Frenchman; while the other men were to remain and work to earth control.

The Time Machine received its name because the inventor believed that civilization existed on other planets, as ours was and will exist, therefore, by going to other planets, we could see what our civilization will become or what it has been in the past.

(continued next week)
